PROFESSIONAL SUMMARY

Aspiring Data Engineer with a strong foundation in Cloud Computing and Big Data technologies. Currently working with Azure Databricks, PySpark, and Azure Data Factory to build scalable ETL pipelines and implement data governance frameworks. Experienced in migrating legacy systems and optimizing data ingestion workflows using Medallion Architecture. Proven track record in both backend development and data engineering.

EXPERIENCE

Junior Associate (Data Engineering)

Sep 2025 – Present

Celebal Technologies

India

- End-to-End Pipeline Development:** Designed and deployed robust ETL/ELT pipelines using **Azure Data Factory (ADF)** and **Databricks**, facilitating seamless data generation, uploading, and processing.
- Medallion Architecture:** Architected and maintained a multi-layer data lakehouse (Bronze, Silver, Gold layers) to ensure data quality, consistency, and accessibility for analytics.
- Data Governance & Security:** Implemented **Unity Catalog** for centralized access control, lineage tracking, and data discovery across the organization's data estate.
- Optimization & Automation:** Utilized **Databricks Autoloader** for efficient incremental loading and batch processing of high-volume datasets.
- Migration POC:** Executed a Proof of Concept (POC) for migrating legacy data warehouses to Databricks, validating cost efficiency and performance gains.

Trainee Engineer (Backend Developer)

Oct 2024 – May 2025

Tech Tide LLP

Kolkata

- Designed and optimized complex **SQL queries** for backend data retrieval, ensuring high performance and accuracy.
- Enhanced database efficiency by implementing indexing on key columns, resulting in a 17% reduction in query execution time.
- Managed relational database schemas and enforced rigorous data integrity constraints to support business logic.
- Collaborated in an Agile environment to optimize data storage strategies and deliver database modules within sprint deadlines.

Data Engineering Intern

June 2023 – Aug 2023

Celebal Technologies

Remote

- Gained hands-on experience with **SQL** and database management by building a Teacher-Student Management System.
- Developed foundational skills in **Azure Cloud Services** and Power BI for data visualization.
- Awarded a **Golden Batch Certificate** (Top 2% performer) for outstanding performance during the internship.

TECHNICAL SKILLS

- Data Engineering:** Azure Databricks, PySpark, Apache Spark, Azure Data Factory (ADF), Unity Catalog, Delta Lake, Medallion Architecture, ETL/ELT.
- Languages:** Python, SQL (Advanced), Java.
- Databases & Cloud:** Azure Blob Storage, Data Lake Gen2.
- Tools & Frameworks:** Git, Databricks, Azure Data Factory (ADF), Azure Data Lake Storage (ADLS).
- Core Competencies:** Data Governance, Incremental Loading, Batch Processing, Data Structures & Algorithms.

PROJECTS

End-to-End Lakehouse Implementation

Azure Databricks & ADF

- Designed a scalable data lakehouse using **Medallion Architecture** (Bronze, Silver, Gold) on Azure Databricks.
- Achieved **99% data quality compliance** by implementing automated validation checks and Delta Lake constraints.
- Optimized data processing workflows, **reducing execution time by 30%** through efficient partitioning and Z-Order indexing.
- Implemented **Autoloader** for seamless incremental data ingestion and batch processing from raw sources.
- Established data governance using **Unity Catalog** to manage permissions and lineage across the pipeline.
- Orchestrated end-to-end workflows using **Azure Data Factory**, automating data movement and transformation jobs.

Teacher-Student Database Management System

SQL & Database Design

- Developed a SQL-based system to streamline educational records, reducing manual workload by 20%.
- Implemented indexing on key columns, reducing search time for student records by 30%.

EDUCATION

Heritage Institute of Technology

2021 – 2024

B.Tech in CSE (DGPA: 8.17)

Kolkata

The Calcutta Technical School

2018 – 2021

Diploma in CST (GPA: 8.8)

Kolkata

CERTIFICATIONS & ACHIEVEMENTS

- Certifications:** Training Certificate in Core Java (Internshala), Oracle SQL Certification (Udemy), Power BI (Udemy)
- Achievements:** Golden Badge Certificate (Celebal Summer Internship), **5-Star SQL Problem Solver @HackerRank**, Robotics Competition Participant
